

QuoteWerks Reporting Training Agenda

Location

Training Courses are conducted by a qualified QuoteWerks Trainer and can either take place in our offices, or at a location of your choice.

Format

Reporting training courses typically last a full day, with a “learning by doing” approach.

The trainer starts with a demonstration of the software features that are going to be learnt so that trainees gain an understanding of the end result they are aiming for and the steps necessary to get there. After the demonstration, the training is “hands-on” to provide trainees with progressive practice in using functions of the software.

Notes

- Before attending a reporting course, trainees should either have used QuoteWerks before or have attended the introductory and advanced training courses.
- In order to reduce "background noise" and promote learning, it is strongly recommended that a separate room is used for the training course(s).
- We recommend that a maximum of four people attend each training course to maximise the benefit each individual will get from the session.
- If requested early enough in advance, the trainer may be able to bring some laptops if PCs can not be made available in the training room.
- Training courses can be tailored to meet your specific requirements – please contact us to discuss content, duration and cost.

Terms and Conditions

- The training course price and expense charges included in this document are valid until 31st July 2009 and are subject to VAT at current rates.
- One full day is the minimum training course booking.
