Get the Best Prices

When you select the product that you want to add to the quote, you can right click to immediately see the cost of this product from each vendor that you have setup in QuoteWerks. In a flash, you know which vendor has the lowest price, and you can choose to purchase that item from that vendor.

Refresh quote with latest or best prices

Often customers request a quote, and then for a variety of reasons, the project gets put on hold. Then, one day the customer calls back and says they would like a new quote. No problem for QuoteWerks. Simply select all the line items on the quote, and choose the Refresh with Latest price feature. Immediately, your quote has been updated. In fact, if your cost has now lowered, QuoteWerks will ask you if you would like to keep the profit for yourself, or pass on the lower cost to your customer!

Vendor prices fluctuate often. The QuoteWerks Refresh with Best price feature will automatically find the vendor with the lowest cost for each item on the quote, and update the quote with that information.

About Aspire Technologies, Inc.

Aspire Technologies, Inc. is a **Customer Centric, Value-Driven** and **Innovative Leader** in the quoting software industry; which continually strives to be forward thinking in its development of new features to address the specific needs of our customers.
